

IDETASYSTEMS LLC**DIR-CPO-TMP-593 Deliverables Based Information Technology Services (DBITS)****APPENDIX C – Awarded Categories****DIR-CPO-5972**

Category	Category Title / and Category Description
RFO	Business Intelligence (BI), Data Management, Analytics, and Automation, including Data Warehousing.
Reference	2.2.2
<p>A. BI enables an organization to perform in-depth analysis and includes, where required, data mining of detailed business data providing real and significant information to business users. BI may include an integrated group of operational and decision support applications and databases. BI makes use of tools designed to easily access data warehouse data. A data warehouse collects, organizes and makes data available for the purpose of analysis and gives organizations the ability to access and analyze information about its business. The function of the data warehouse is to consolidate and reconcile information from across disparate business units and IT systems and provide a context for reporting and analysis.</p>	
<p>B. Road mapping for a data warehouse initiative may include assessment of technology and infrastructure, as-is documentation, business requirements gathering, use case development, and reporting requirements analysis.</p>	
<p>C. This category includes solutioning data warehouse architectural design, data warehouse processes and sourcing, extraction, transformation, analytics, and loading of data sources; planning, assessment, product installation and tuning; prototype development, deployment, data cleansing, data mart development and support; data migration, integration with data mining; integration with business intelligence tools, artificial intelligence, and/or systems; data scrubbing; data transformation; training and knowledge transfer.</p>	
<p>D. Data governance planning and implementation, and Business Analytics and Reporting (BAR) are also included in this category.</p>
